The city of Groningen from the waterside...

A tour through the old channels of Groningen aboard the "Wonderlaand" or "Goldenraand" is one of our most popular excursions. You are given a unique opportunity to admire the many magnificent patrician houses and the towers of the town with their centuries of history.

We are proud to inform you that the ' Goldenraand ' now turned into a full electric canal boat, and is again suitable for round trips. The ship can now tour the city all-electric. We welcome you on board!
